

ONE DAY PLANT AND GARDEN PHOTOGRAPHY

A not to be missed opportunity to work alongside two professional photographers Jason Ingram and Paul Debois.

www.jasoningram.co.uk

www.pauldebois.com

The group will be small and while shooting this will be split to enable the tutors to work with people on an individual basis. This workshop is aimed at those who love plant and garden photography and/or those who are thinking of entering the profession.

10am – 11am

Introduction from tutors, tips and tricks, what's in the bag and macro photography - invaluable information on what you need from the bare minimum to the hi-tech, whilst being given an insight into the tutors' professional workflows'.

11am -11.30am

Guided walk around the garden with the tutors to identify different points of interest.

11.30am - 2pm

Shooting time with guidance from your tutors

Lunch (can be taken any time between 12pm - 2pm)

2pm – 3pm

Down loading images – The importance of storing your images correctly, how and why. You will also down load and save your images for discussion.

3pm – 5pm

Critique, an informal, friendly discussion on some of your selected images and a chance to ask questions.

WHAT TO BRING

Camera, tripod, a spare memory card and appropriate clothing, spare batteries. Food is available to purchase at the garden tearoom, local pub and shops or please bring a packed lunch

You will need to know the basic functions of your camera.
