

Two Day Photoshop Workshop

This course has been designed to be a follow-on to The Society's One Day Introduction to Photoshop workshop. If you have not attended this workshop, but feel that you have a good understand of basic Photoshop techniques please contact liz@rps.org.

The course is designed for:

Those working in digital imaging, photography, graphic design, publishing or other roles that involve day to day use of Photoshop. It aims to provide more experienced users with the knowledge and hands-on experience in techniques necessary to create, manipulate and edit professional quality images with skill and precision.

On completion of this Photoshop course, attendees will be able to:

- Use masks and layers to an advanced standard
- Understand a variety of ways to make advanced selections and apply the most appropriate for each purpose
- Use the Adobe Camera Raw plugin
- Generate monochrome and split tone images
- Use retouching features to make pictures perfect
- Use Adobe Bridge to organise, proof and process images in batches
- Output using a colour managed workflow for web and print

Courses contents:

- Photoshop window layout options
- Management of layers
- Adjustment layers
 - Brightens and Contrast
 - Levels
 - Curves
 - Colour Balance
 - Black and White
