

Melbourne in Lockdown

Rob Morgan ARPS

Here are a few images I have taken during our lockdown (obviously while getting food or exercise). See more on my website: robmorgan.com.au > Gallery > Corona Town (2020)

Clockwise from top left: Neighbours do social distancing with their visiting children before the lockdown got more serious; The Barbers of Bulleen; Ethanol E10 petrol was down from a typical \$1.30/l. It got down as low as 79.9c/l before leaping up by 35c at the first whiff the restrictions easing on 13 May; Shades of 'On the Beach': the steps and seats around the closed State Library get a serious hosing-down; Royal Arcade in the city centre: empty with all its shops shut, on the first Friday in April.
