Project v Theme

- We are all working towards an overall Regional Project
- Individual's work will contribute to the whole.
- Individuals can do something in-depth covering every angle – this work is for the zine
- Or they can do a small series of images around a theme.
- Or something in between
- There is no right or wrong approach.
- But what they share is having an idea and deciding what to shoot, when to shoot and how best to capture your idea.

And Finally

- If you are having any issues or anything is unclear, just write to the project team Londonprojects@rps.org
- We are happy to talk through your ideas if that would be helpful.
- If you do have a theme or subject for your work – please let us know at the address above.
- We really don't want to lose anyone ,but if you don't wish to continue, please cancel on Eventbrite or let us know.
- See you next month and keep shooting!
