

54N 1W, Yorkshire By Simon Hill FRGS HonFRPS

The intersection is to the north of Stockton-on-the-Forest, a small village approximately 4 miles (6.5km) north-east of the City of York. The intersection is situated on private farmland so was photographed using a drone. A direct flight path was routed to avoid proximity to power lines and other obstacles. The photograph was taken with the drone in position $54^{\circ} 0' 0.451''$ N, $0^{\circ} 59' 59.352''$ W, with a direction of view approximately NW. The physical location of the intersection is on the east side bank (right hand side as photographed) of the drain pictured bottom left. This drain runs into another drain, running south-west and pictured across the width of the photograph. This drain runs south-west into Old Foss Beck which cuts north-south through Forest Park Golf Club.
