

THE RPS GROUP

This is the definition of Photo Harmony

'Photo Harmony should demonstrate skill in the production and visual progression of still photographs linked to sound. No script or commentary with a specific beginning, middle and ending are required but the images must flow well in a pleasing progression, not just in a random manner. The emphasis is on visual harmony in colour, tone or graphic design.

The aim is not to display a collection of individually excellent photographs, but rather a sequence of good pictures which blend well with each other and with a suitable soundtrack. Good technique is essential, and it is expected that the sound and the pictures will start and finish together and that the original ending of the music is preserved, rather than an arbitrary fade out.'
